

Archbishop Tenison's

CHURCH OF ENGLAND HIGH SCHOOL

SIXTH FORM

MFL A Level Course Overview

At Tenison's, we teach A-Level French and German. It is a qualification that develops advanced language fluency, cultural understanding, and critical analysis of French and German speaking countries.

- In year 12 we talk about trends in the culture of the TL such as the changing nature of family, film and music, world heritage and the digital world .
- In year 13 we deal with more academic topics, such as immigration and integration, politics and history.
- We study a film and a book in the target language and learn what this reveals about the country and its culture.
- There is also an independent research project, where you choose a topic of interest to you and research it. This is really great practice for university and independent study skills

What is great about MFL at Tenison's Sixth Form?

What sets us apart from other Sixth Forms is that you will be taught by native speakers and language specialists. Our classes are smaller than what you would be used to at GCSE. This allows students to get that one-to-one guidance and help. During your time at Tenison's, you will have the opportunity to attend a Study Day at the British Film Institute which is going to develop your film analytical skills.

Opportunities and successes

- Speaking a second language boosts your employability in any sector!!
- Languages are sought after in tourism, import export, any career that requires communication with good/services abroad, foreign market banking, anything abroad where the language is spoken, teaching, etc.
- The languages most often sought by employers are: French, German, and Chinese (Mandarin).
- Universities are tuition-free in Germany.
- Universities tuition fees in France are considerably cheaper than in England.
