HOW BROMCOM COMMUNICATES WITH PARENTS

Messages

- Used for letters and important documents
- If parents have the MCAS app with notifications on, they receive an app notification
- If not, the message is sent by email

Announcements

- Used for reminders and general updates
- Announcements always appear in MCAS
- If a parent has never logged into MCAS, they also receive the announcement by email

This ensures all parents receive timely information, whether through the app or email.
